Paul’s Bible of Military – A Road to Damascus – and Praise of Exactitude in the Prophet
By Shomit Sirohi

I. Movements and Gliding – Christ’s Walk in the Shoreline and From Matthew to Miracle, eve to Jerusalem – How to Follow the Military

In fact one expects a mass line to be passed, then one stops before the Church, a veritable jett-zeit which then marks the question – Yes or No, which then passes as a walk to the Pope – I call this a Bible.

II. Praise as in Fact Prophecy of what is Messianic and cannot be done by all or one is now duty by all or one.

In fact now collect the military organised dispostive –

I. Letters (Paulinian, Franciscan, even Jewish and Islamic)
II. Mark it like Sirohi with stories and news
III. Organise the file with other quotations – Poulantzas and even Lenin and Trotsky
IV. All of this as Games, Apps and even Analytics mathematique
V. Organise a Whole Spandrel of these kinds as flipping through pages.
VI. Then Call Sirohi, the Prophet who is a Psychoanalyst and Exact, now Totalisation.

In fact it predicts that we were all collected (in arrows and topoi) which then was systematically sent to general strike and march and rally – while the Prophet joins the mass with a Curator – Giri and this is Prophetic act.

“I call it the Act, you know, like a forceful John Brown thing.”
